

Wean/Finish Feeder

Hog Feeders Ideal For All Stages of Growth.

Stainless Steel Feeders For Nursery, Finish and Wean/Finish

VAL-CO's reliable feed adjustment is quick & precise - in increments that allow you to feed at the "RIGHT" amount.

VAL-CO Feeders are designed for long life, strength and safety with all-welded 304 stainless steel construction and folded edges. Our stainless steel feeders are available for ALL phases of hog feeding in single or double sided models.

The VAL-CO feed adjustment system is not only fast and easy to operate — it stays set! Just lock the setting and load the feeder with confidence. Animals are unable to reset the feeder. Select any one of twelve positively locked feed settings for optimum feeding efficiency.

Finish Feeder

Nursery Feeder

Nursery Models	Capacity Bu.	LxWxH Inches	Shipping Wt. Lbs.	Finish Models	Capacity Bu.	LxWxH Inches	Shipping Wt. Lbs.
190118 Single 3	1.4	18.25x12x25	24	190140 Single 4	4.2	40.25x16x31	58

18 Gauge Sidewall & 16 Gauge Trough, Dividers & Ends			
Recommended Pig Capacity: 10 pigs per hole			

VAL-CO's feeders are built tough to last with all-welded 304 SS.

Wet/Dry Wean-To-Finish Tube Style Feeders

Easy adjustment allows you to control the amount of feed they'll receive.

VAL-CO Wean-To-Finish feeders save the time, labor and management of moving animals during various stages of growth. All models use heavy 16 gauge 304 stainless steel welded trough with separate compartments for feed and water. Large 4" diameter PVC feed tube with spinner agitator to keep feed from bridging. Adjustment is as easy as turning a crank. Once adjusted, drop the crank handle into the nearest slot

Wean/Finish Tube Feeder

to lock your setting. The VAL-CO water manifold is welded stainless steel pipe – a single connection makes it easy for you to supply water to all 3 nipple waterers.

Models are available in 48" and 60" lengths, with your choice of stainless steel tubular gating or powder coated solid steel gating. Models are also available with hoppers for additional feed capacity.

Spinner agitator keeps feed from bridging.

Tube feeder with hopper

With stainless steel tubular gating		Ship Wt.
190009	48" length	70 lbs.
190010	60" length	85 lbs.
Recommended Capacity:		
48" = 50 head / 60" = 60 head		

With powder coated solid steel gating		Ship Wt.
190019	48" length	105 lbs.
190020	60" length	133 lbs.
Recommended Capacity:		
48" = 50 head / 60" = 60 head		

Plastic Hoppers		Ship Wt.
190012	For 48" Feeder	20 lbs.
190013	For 60" Feeder	25 lbs.
Capacity:		
48" = 125 lbs. / 60" = 200 lbs.
