

# Take Control!

The Ventra™ PRO Controller from VAL-CO™ provides many options.

VAL-CO is proud to introduce the Ventra Pro Controller with options that can help to save you time and money.

## Features & Benefits:

- **One-Touch Access to Pertinent Information:** Daily high/low temperatures, water usage, feeder run times, etc. all available in one simple menu at the touch of a button.
- **Plug In Relays:** Make it easy to swap parts in the field with minimal downtime.
- **Built-In Assistant:** Shows data points that fall outside of acceptable parameters for quick and easy diagnosis of problems.
- **Multiple Programs:** Stored in one SD card for quick changing of seasonal ventilation parameters.
- **Track Propane Usage:** Quickly see when expenses are climbing, and correct the cause before it's too late.
- **Heater/Curtain Zone Interlock:** Reduce wasted fuel by preventing heaters from turning on if the curtains in the same zone are open by more than 1".
- **Heat Purge:** Heated air holds more moisture, so less air needs to be exhausted to remove moisture, and gentler temperature swing is easier on the animals for improved health.
- **Curtain Exercise Routine:** When hot weather causes curtains to stay open day after day, rodents can begin to build nests inside the curtain folds. The new exercise routine can fully close and open the curtains automatically, which will dump out the nests and prevent damage to your curtains.
- **Outside Temp Influence/High Temp Alarm:** Reduce nuisance alarms during warm weather; high temperature alarm will be adjusted based on high outside temperatures.
- **English or Spanish Language:** Rapid "key stroke" to toggle between Spanish or English language menus helps make the controller easily accessible to different workers.

The VAL-CO family of products provides all your equipment needs.

- Complete Housing Systems
- Breeder Systems
- Feeding Systems & Storage
- Watering Systems
- Controllers
- Heating and Cooling
- Fans, Inlets & Chimneys
- Scales
- Cremators
