

# Rugged & Reliable Means Peace of Mind.

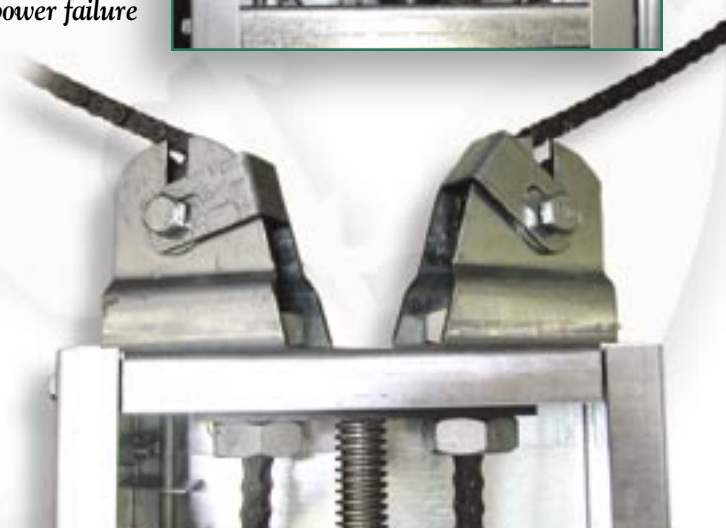

VAL-CO's Curtain and Inlet Operators are made for the long haul because they are specifically engineered for optimum performance in the harshest conditions. SafeTRAC Operators are the most durable performers in the business and they will provide you with a smooth and quiet operation for many years.

The SafeTRAC Ball-screw and Acme-screw models are available in 36", 48", 60", and 72" sizes with 220V, 60/50Hz or 110V, 60Hz motors for domestic and international use. Each model also includes:

- Installation options to fit any application
- Local control switches
- Greasable needle bearing pulleys
- Helical gears for maximum efficiency and performance
- Safety features to prevent over-run damage
- Up to 4,500 lb. (2,000 kg.) capacity
- Interior or exterior installation
- Polymer thread block engineered for superior performance and longevity (Acme-screw only)

Options available:

- Swivel chain and sprocket (replaces pulleys)
- Potentiometer feedback kit (10-turn)
- Interlock switch to operate associated equipment
- Clutch to open curtains on power failure (Ball-screw only)

Above right: Clutch option available for Ball-screw machines.

Right: Optional swivel chain and sprocket is also available.

## Winch Handles

Below are two of the more popular winch handles we carry - Winch Handle with Grip Tubes & Adjustable Winch Handle (6 - 12').

## Winches & Pulleys

We carry a wide variety of winches and pulleys for practically any type of application you may have. Finish off your project with our large selection of winching components and accessories.

Call your local **VAL-CO** representative or distributor for more information on this and other fine quality products.
