The new VAL-CO Light Trap offers high light reduction, low air flow resistance, streamlined profiles, high corrosion resistance and a low cost installation. Units are available in multiple sizes and configurations to fit your needs.

VAL-CO Light Traps can easily be used in retrofit or new installations. VAL-CO's representatives can size a system for you that will optimize price with performance. Also available as a metal framed cartridge, shown at the bottom right.

Contact us to find out more detailed information about how our Light Traps can benefit you!

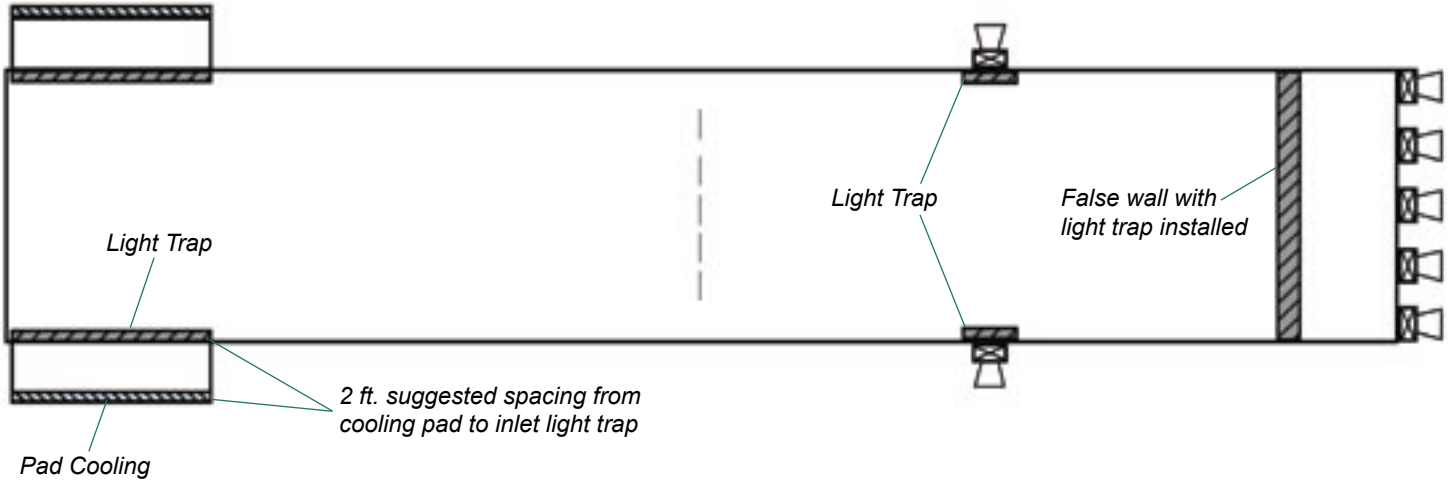

VAL-CO's new Light Traps – available with the framed metal cartridge (shown right), or without the metal cartridge (shown above).
