

Acid-Maxx 4- Way 2X

SAFETY DATA SHEET

(Globally Harmonized System)

SECTION 1: Identification of the substance/mixture and of the company/undertaking

- 1.1 Product identifier
ACID-MAXX 4-WAY 2X
- 1.2 Other means of identification Not applicable
- 1.3 Recommended use of the chemical and restrictions on use
ACID-MAXX 4-WAY 2X is an acidifier for pigs, calves, and poultry.
Details of the supplier of the safety data sheet
- Paragon Specialty Products, LLC.
411 Ranch Road, Rainsville, AL 35986
Tel: 256-638-9636 / Fax: 256-638-9637
Email: paragonprod@farmerstel.com
- 1.4 Emergency telephone number
Chem Trec: 1-800-424-9300 24 hours

SECTION 2: Hazards identification

- 2.1 Classification of the substance or mixture Not applicable
- H Phrases: None listed
P Phrases: None listed
- 2.2 GHS Label elements Not applicable
- 2.3 Other hazards
- Inhalation: Exposure to dust may cause irritation to the nose, throat or respiratory system. If application creates dust, use appropriate approved respiratory protection. Persons with allergies should avoid exposure.
- Skin Contact: Skin contact may cause a slight irritation. Symptoms may include redness, itching and pain. Persons with allergies should avoid exposure.
- Eye Contact: Product may cause slight irritation. Symptoms include redness, itching and pain.
- Ingestion: Not found to be toxic by oral exposure. Ingestion of this product may cause slight irritation.
- Chronic Health Effects: Not identified.

SECTION 3: Composition/information of ingredients

3.1 Substances Not applicable

3.2 Mixtures

CAS#:	Component	Weight %
77-92-9	Citric acid	Not disclosed
7647-14-5	Salt	Not disclosed
9050-36-6	Maltodextrin	Not disclosed
7440-40-7	Potassium chloride	Not disclosed
112926-00-8	Silicon dioxide	Not disclosed
NA	Natural and artificial flavors	Not disclosed
128-44-9	Sodium saccharin	Not disclosed
110-44-1	Sorbic acid (a preservative)	Not disclosed
6132-04-3	Sodium citrate	Not disclosed
7446-19-7	Zinc sulfate	Not disclosed
7782-63-0	Iron sulfate	Not disclosed
10034-99-8	Magnesium sulfate	Not disclosed
NA	Dried <i>Aspergillus oryzae</i> fermentation extract	Not disclosed
NA	Dried <i>Bacillus subtilis</i> fermentation extract	Not disclosed
NA	Dried <i>Lactobacillus acidophilus</i> fermentation product	Not disclosed
NA	Dried <i>Enterococcus faecium</i> fermentation product	Not disclosed

NA: Not applicable

SECTION 4: First aid measures

4.1 Description of first aid measures

Eyes:	Flush eyes immediately with copious amounts of clean water for 15 minutes. If irritation or redness persists, seek medical attention if allergic response exhibited.
Skin:	Remove affected clothing immediately. Flush affected area(s) with copious amounts of soap and water. If skin surface is damaged, apply a clean dressing. Wash contaminated clothing before reuse. If irritation or redness develops, seek medical attention immediately.
Inhalation:	Remove victim from source and allow to rest in well ventilated area. If breathing is difficult, obtain medical attention immediately.
Ingestion:	Do NOT induce vomiting unless directed to do so by medical personnel. Never give anything by mouth to an unconscious person. Seek medical attention.

4.2 Most important symptoms and effects, both acute and delayed Not identified.

4.3 Indication of any immediate medical attention and special treatment needed Not identified.

SECTION 5: Firefighting measures

5.1 Suitable extinguishing media

Use media that is appropriate to treat surrounding fire. Consider alcohol-resistant foam, carbon dioxide, regular dry chemical, or water spray. Avoid heavy stream of water. Self contained breathing apparatus is required.

5.2 Special hazards arising from the substance or mixture

Evolves carbon dioxide, carbon monoxide or hydrocarbon fumes upon combustion.

5.3 Special protective actions for fire-fighters

Move container from fire area if it can be done without risk. Do not scatter spilled material with high pressure water streams. Use extinguishing agents appropriate for surrounding fire. Avoid inhalation of material or combustion by-products.

Fire fighters should wear self-contained breathing apparatus with full face piece operated in positive pressure mode and protective clothing to prevent contact with skin and eyes.

SECTION 6: Accidental release measures

6.1 Personal precautions, protective equipment and emergency procedures

Ventilate the area. Wear appropriate protective equipment as specified in section 8. Avoid dust formation and avoid inhalation of dust. Use a respirator or a combination filter. Keep unnecessary personnel away.

6.2 Environmental precautions

Place contaminated materials in disposal containers and dispose of in a manner consistent with applicable regulations. Contact local environmental or health authorities for approved disposal of this material. Do not dispose in canals, surface water, or ground water.

6.3 Methods and material for containment and cleaning up

Sweep, shovel, or vacuum up the material. Avoid any excess dust formation. Use caution as product may be slippery when wet. Keep product out of sewage and drainage systems and all bodies of water. Clean spills immediately. Ventilate the contaminated area. Thoroughly wash the area with water after a spill.

SECTION 7: Handling and storage

7.1 Precautions for safe handling

Avoid contact and inhalation. Do not get in eyes, on skin, on clothing. Wash thoroughly with soap and water after handling. The use of respiratory protection is advised when dust concentrations exceed any established exposure limits (see section 8).

7.2 Conditions for safe storage, including any incompatibilities

Store in a cool, dry place. Open containers should be resealed. Shelf life under these conditions is 18 months.

SECTION 8: Exposure controls/personal protection

8.1 Control parameters

Component (CAS#):	Maltodextrin (CAS#: 9050-36-6)
	TLV: 10 mg/m ³
	PEL: 15 mg/m ³

Silicon dioxide (CAS#: 112926-00-8)
TLV: 10 mg/m³
PEL: 1.2 mg/m³ (inhalation respirable)

8.2 Appropriate engineering controls:

Use process enclosure, general dilution ventilation, or local exhaust systems, where necessary to maintain airborne dust concentrations below the applicable regulations. A system of local and/or general exhaust is recommended to keep employee exposures below the Airborne Exposure Limits.

8.3 Individual protection measures

- Eye/face:** Protective goggles or face shields.
- Skin:** Wear impervious gloves and general purpose overalls with elasticized cuffs and leg bottoms. Persons with allergies should avoid exposure.
- Respiratory:** Protection is not normally required. Wear a dust mask or other appropriate approved respiratory protection when effective engineering controls are not feasible or during operations that generate airborne dust concentrations exceeding the relevant standards. A respiratory protection program that meets applicable requirements whenever workplace conditions warrant a respirator's use. Persons with allergies should avoid exposure.

SECTION 9: Physical and chemical properties

9.1 Information on basic physical and chemical properties

- | | |
|--------------------------------------------------|------------------------------------------------------|
| (a) Physical appearance | White, free-flowing powder |
| (b) Odour | Pleasant |
| (c) Odour Threshold | Not available |
| (d) Bulk Density | 64.54 lb/ft ³ (1035.8 kg/m ³) |
| (e) pH | Not available |
| (f) Melting point/freezing point | Not available |
| (g) Initial boiling point | Not available |
| (h) Flash point | Not available |
| (i) Evaporation rate | Not available |
| (j) Flammability | Not available |
| (k) Upper/lower flammability or explosive limits | Not available |
| (l) Vapour pressure | Not available |
| (m) Vapour density | Not available |
| (n) Relative density | Not available |
| (o) Solubility | Water soluble |
| (p) Partition coefficient: n-octanol/water | Not available |
| (q) Auto ignition temperature | Not available |
| (r) Decomposition temperature | Not available |
| (s) Viscosity | Not available |

9.2 Other information

To the best of our knowledge the chemical, physical, and toxicological properties of this product have not been thoroughly investigated.

SECTION 10: Stability and reactivity

10.1	Reactivity	Not available
10.2	Chemical stability	Product is stable under normal storage conditions (21°C, 1atm).
10.3	Possibility of hazardous reactions	Not available
10.4	Conditions to avoid	Avoid moisture, heat and sources of ignition.
10.5	Incompatible materials	Not available
10.6	Hazardous decomposition products	Not available

SECTION 11: Toxicological information

11.1	Information on toxicological effects	
	(a) Acute toxicity	<p>Citric acid (CAS#: 77-92-9) Oral[rat]: 3000 mg/kg Oral[mouse]: 5040 mg/kg</p> <p>Salt (CAS#: 7647-14-5) Oral[rat]: 3000 mg/kg Oral[mouse]: 4000 mg/kg</p> <p>Potassium chloride (CAS#: 7447-40-7) Oral[rat]: 2600 mg/kg Oral[mouse]: 1500 mg/kg</p> <p>Sodium saccharin (CAS#: 128-44-9) Oral[rat]: 14200 mg/kg Oral[mouse]: 17500 mg/kg</p> <p>Sorbic acid (CAS#: 110-44-1) Oral[rat]: 7360 mg/kg Dermal[rabbit]: >1000 mg/kg</p>
	(b) Skin corrosion/irritation	Not expected to be toxic. Exposure may cause slight irritation.
	(c) Serious eye damage/irritation	Not available
	(d) Respiratory or skin sensitization	Not available
	(e) Germ cell mutagenicity	Not available
	(f) Carcinogenicity	Not applicable
	(g) Reproductive toxicity	Not applicable
	(h) STOT-single exposure	Not applicable
	(i) STOT-repeated exposure	Not applicable
	(j) Aspiration hazard	Not applicable
11.2	Information on the likely routes of exposure	Not applicable
11.3	Symptoms related to the physical, chemical and toxicological characteristics	Not applicable
11.4	Delayed and immediate effects and also chronic effects from short and long term exposure	Not applicable
11.5	Other information	Other toxicological information: To the best of our knowledge the chemical, physical and toxicological properties of this product have not been thoroughly investigated.

SECTION 12: Ecological information

12.1 Toxicity

Component (CAS#):	Citric acid (CAS#: 77-92-9)
Test & Species:	LC50[Leuciscus idus melantus]: 440 mg/l - 48h

Salt (CAS#: 7647-14-5)
LC50[Lepomis macrochirus]: 1294.6 mg/l - 96h
LC50[Daphnia magna]: 343 mg/l - 48h

Potassium chloride (CAS#: 7447-40-7)
LC50[Pimephales promelas]: 880 mg/l - 96h
EC50[Daphnia magna]: 83 mg/l - 48h

12.2 Persistence and degradability	Not available
12.3 Bioaccumulative potential	Not available
12.4 Mobility in soil	Not available
12.6 Other adverse effects	Not available

SECTION 13: Disposal considerations

13.1 Waste treatment methods	Not identified
------------------------------	----------------

Disposal instructions: Consult local, state and/or provincial environmental regulatory authorities for acceptable disposal procedures and locations. Follow standard disposal procedures in accordance with Directive 2008/98/EC of the European Parliament and of the Council of the Member State.

SECTION 14: Transport information

14.1 UN number	Not applicable
14.2 UN proper shipping name	Not applicable
14.3 Transport hazard class(es)	Not applicable
14.4 Packing group	Not applicable
14.5 Environmental hazards	Not applicable
14.6 Special precautions for user	Not applicable
14.7 Transport in bulk according to Annex II of MARPOL73/78 and the IBC Code	Not applicable

SECTION 15: Regulatory information

15.1 Safety, health, and environmental regulation/legislation specific for the substance or mixture	Not available
-----------------------------------------------------------------------------------------------------	---------------

SECTION 16: Other information

Preparation Date:	March 18, 2015
-------------------	----------------
