www.cidlines.com

Uses

For use on all surfaces in hatcheries, setters, processing equipment, grows-out and laying houses.

- Contains wetting agents and corrosion inhibitors
- Chlorinated to effectively remove protein soils
- Highly effective using cold water
- Can be applied with all foam generating, high or low pressure application equipment

Dilution

2 to 4 oz. cleaner per gallon of water.

Directions

Mix with clean tap water, and apply mixture with suitable foam or low pressure spray equipment.

Precautions

Always wear recommended safety apparel.

Warning

Never mix with an acid. Adhere to specific label directions.
