

RAYDOT, LLC

Lifetime Warranty

LIMITED WARRANTY

RAYDOT, Inc. warrants this unit, POWER MISER FAN series, subject to the following terms and conditions. RAYDOT, Inc. hereby warrants that should this product prove defective by materials and workmanship for as long as the fan is being used in its original installation, and is owned by its original purchaser.

PRODUCT COVERAGE

This limited lifetime warranty includes RAYDOT fan housings, cone and motor mounts. All other fan components, attachments, and accessories are excluded from this lifetime warranty, but are covered under the normal RAYDOT product warranty which covers defects in material and workmanship for a period of one year from date of installation. RAYDOT motors are covered under the normal warranty which covers defects in materials and workmanship three years from date of installation.

CONDITIONS

1. Installation must be made in accordance with our installation instructions.
2. The unit must not have been previously altered, modified, or repaired by anyone other than RAYDOT.
3. The unit must not have been subject to accident, misuse, abuse, operated or installed contrary to the instructions on the following sheets.
4. The person requesting the services provided hereunder must be the original purchaser of the unit and furnish proof of purchase upon request.
5. This warranty is applicable only to the RAYDOT Power Miser Series fans.
6. All transportation charges on units submitted for warranty repair must be borne by the purchaser.
7. For warranty services, return unit together with original proof of purchase.
8. RAYDOT holds the right to repair or replace the defective unit.

Except to the extent prohibited by applicable law, no other warranties, whether expressed or implied, including warranties of merchantability and fitness for a particular purpose, shall apply to this unit. Any and all implied warranties are excluded. RAYDOT shall not be liable for consequential damages sustained in connection with the said unit.

RAYDOT, Inc. reserves the right to improve or alter the POWER MISER FAN series without notice.

SERVICE AND TECHNICAL ASSISTANCE

Your dealer or the RAYDOT Service Department will be happy to answer all technical questions which will improve your use of the Power Miser series fans. Be prepared with the model number and necessary information before you place a call to your dealer or RAYDOT, Inc. If your fan requires service when the warranty period has expired, please contact your dealer for assistance or return the unit to RAYDOT for repair.

FAN MAINTENANCE

CAUTION: Disconnect electrical power before servicing fan.

Inspect Propeller: Check to see that the propeller is secure on motor shaft and that there are no signs of damage.

Clean Fan:

Motor - Remove any dust accumulation from motor using a brush or cloth. (DO NOT use a pressure washer.) A clean motor will run cooler and last longer. Check if the motor is secure in its mount.

Shutter - Carefully clean dust from shutter vanes and frame so that shutter opens and closes freely. If shutters are extremely dirty you can lose up to 45% of your fan capacity.

Guard - Clean any dust or dirt buildup from fan guards using a brush. Dirty guards can also reduce air flow.

Housing - Remove dust and dirt accumulations from housing with a pressure washer.

Inspect Fan Control(s) - All controls should be inspected every six months to assure optimum protection of your ventilation system.

- * Check all covers for a tight fit.
- * Wipe enclosures with a damp rag to remove dirt and dust.
- * Clean sensors with a damp rag to remove dirt and dust. Be very careful not to damage sensors.
- **NEVER CLEAN ELECTRICAL EQUIPMENT WITH A POWER WASHER!**
