QuickStart™

Perinatal Nutritional Supplement for Poultry

30 lb of Product after Hydration

NET WEIGHT: 15 POUNDS (6.8 kg)

Directions for Use in Poultry House as Top-Dressing for Feed

1. Remove bagged contents from container and add warm water to fill line
2. Stir while slowly adding contents of package to water
3. Let stand for 5 minutes
4. Sprinkle hydrated QuickStart directly onto feed trays. For best results use 1 package per 10,000 hatchlings.

Directions for Use in Hatchery Transport Boxes:

1. Remove bagged contents from container and add warm water to fill line
2. Stir while slowly adding contents of package to water
3. Let stand for 5 minutes
4. Place 0.5 to 1.5 cups (100-300g) of hydrated QuickStart into the shipping box per 100 hatchlings. Shipping times will determine the amount required.
5. Normal overhead lighting is required for consumption to occur.

USE WITHIN 6 HOURS OF HYDRATION
