

The Best Solutions For Feeding Your Chicks.

VAL-CO's Best START® Makes It Easy

Best START® Chick Feeder

Save valuable time by using the Best START® Chick Feeder with your broiler chicks and breeder pullets. This kit is easily installed

and is less expensive than other automatic solutions. Simply snap the sturdy plastic pieces together around the feed pipe and in less than a minute, you are ready for the chicks. You can easily adjust the extender for amount of feed needed and for height from the floor or tray. When the birds have graduated to pan feeders, just shut the feed off by rotating the assembly up and out of the way.

Best START® Crown Sleeve Kit and Feeder Tray

Keep your feed clean with our Crown Sleeve Kit and Chick Feeder Tray. Together with the Chick Feeder, you can give the chicks all the feed they want and plenty of space to scratch. The Crown Sleeve Kit will transition your birds easily to regular feeders with a minimum of mess. The Chick Feeder Tray will keep the feed off the ground and keep it dry.

VAL-CO

Feeder Options

Below are a few of the feeder options that VAL-CO offers that work perfectly with the Feeder Ring.

Gro-Pro Feeder

Gro-Pro Grill-less Feeder

Gro-Pro 5-Star Feeder

The VAL-CO Feeder Ring

As an alternative to our Best START® Chick Feeder and Feed Tray, we offer the VAL-CO Feeder Ring. This ramp/ring will fit any 14" poultry feeder, like our Gro-Pro feeder line. Use the adjustability of the Gro-Pro line to give the chicks exactly what they need for the first few days.

The VAL-CO Feeder Ring has a series of ridges, which span the entire diameter, that not only allow the chicks better traction to get to the feed in the pan, but it will also collect any feed that may fall out of the pan. This feature alone can save you money because the birds can still consume the feed and your floors stay cleaner!

Also, with easier access to the feed, better feed conversion is achieved. When the birds have reached the right height, just slip the ring from under your feeders and you are done.

Call your local **VAL-CO** representative or distributor for more information on this and other fine quality products.
