## Zone Control Example

### Features

Unlike other forms of heating that use significant amounts of energy to heat the entire volume of a building, infra-radiant heat allows you to concentrate the heat directly on the animals and the floor. You benefit from lower fuel cost without sacrificing animal comfort. All Infra-Radiant heaters are built from stainless steel to stand up to corrosive environments and power washings. No moving parts and a simple design mean low maintenance.

#### G12

- 42,000 BTUs produces a large heat pattern with minimum fuel use.
- Unique reflector design allows heat to spread over 1,000 square feet while limiting the hot spot directly beneath.

#### M8

- The largest of the M series heaters. Produces 17,200 Btu/hr.
- Perfect for large wean to finish pens.

#### M5

- Operating gas pressure range of 0.1 to 4.5 psi.
- Perfect for mid-sized wean to finish pens.

#### M3

- Operating gas pressure range from 0.3 to 4.5 psi.
- Perfect for small wean to finish pens.

#### M2

- Small and efficient.
- Perfect for farrowing.

## Product Comparison
