

TC5-2N6FA Power/Natural Environmental Control

Automated Production Systems is pleased to announce the introduction of the Airstream TC5-2N6FA Power/Natural environmental controller with two independent curtain outputs.

Features include:

- Two variable speed fan stages
- Two on/off fan stages
- Two independent zoned curtain outputs with timers
- Two heating or cooling stages configurable as:
 - One heat stage and one mist stage with timer
 - Two heat stages zoned
 - Two heat stages cascading
- Actuated inlet control with addition of TC5-ITA or PF-6 inlet positioning modules
- Alarm contact
- Three temperature sensors included with the control
- Set point and minimum ventilation curves
- Humidity sensor input (sensor not included)
- High/low temperature registration

Part #	Description	List
TC5-2N6FA	Vent, Power/Natural Ventilation Control, (Independent Curtains)	\$1,750.00
E330-0536	TC5-2N6FA Top Unit	\$790.00
E330-0537	TC5-2N6FA Bottom Unit	\$1,050.00

Please contact your District Manager, Customer Service Representative or Service Technician if you have questions regarding this new environmental controller.
