# Less Waste, More Pig.

## Stainless Steel Hog Drinkers

The Stainless Steel Hog Drinking System from VAL-CO® will provide just the right amount of water, reducing spillage by as much as 40%. The Drinking Cup protects the Hog Nipple and allows a small amount of water to attract the pigs to drink more. Models available from Nursery to Wean to Finish Cup.

- 304 grade SS cup, pipe, nipples & fasteners
- 48" & 36" SS pipe with 1" off-set bend
- Welded oversize pipe thread, eliminates leaks caused by crushed pipes
- Sanitary, non-seamed cup edges allow complete cleaning
- Top gate bracket fits round or angle
- Safe for all pigs; no sharp edges

Nursery Drinker

Type of Drinker	Pig Size in Pounds (lbs.)	Pigs Per Bowl	Mounting Height (in.)
Wean-To-Finish	13 - 275	30 Weaners or 20 Finishers	4.7"
Nursery	Piglets	1 Litter (12 max.)	2"

For Use for 35 - 40 Pigs

## VRH-3

With the new valve it is sufficient.

The use of the new VRH-3 water level valve gets easier.

- The VRH-3 features an optimal performance, which has proved to be successful in keeping a homogeneous water level and maximizing water availability.
- Works with lower water pressure.
- Optimized membrane. Highly elastic membrane provides a perfect fitting and functioning.
- It works without any electrical or mechanical gadget.
- Easy opening: manual opening and closing. No tool is required.
- Water supply's tap at the back.
- Water connection can be adjusted by rotation.
- Fast down pipe connection, pipe does not require tread.
- USED in farrowing, gestation, weaning and finishing.

TECHNICAL DATA		
Nº animals/VRH-3	1-20	
Pressure	minimum	maximum
	0,3 bar	2 bar.
Volume	minimum	maximum
	1 L/min.	3,5 L/min.
