

# SAFETY DATA SHEET

## 1. IDENTIFICATION OF THE SUBSTANCE/PREPARATION AND THE COMPANY/UNDERTAKING

**Product Name:**  
BIURET, FEED GRADE BAGGED 50#  
**Use of the Substance / Preparation:**  
Animal Feed Ingredient

**Product Code:**  
47506014

**Contact Manufacturer:**  
ADM Animal Nutrition™  
1000 North 30th St.  
Quincy, IL 62301  
United States  
Tel. (+1) 217-222-7100 (business hours)

**Emergency response telephone number:**  
Chemtrec 1-800-424-9300 (CCN 1635)

## 2. HAZARDS IDENTIFICATION

### Emergency Overview

May form combustible dust concentrations in air (during processing and handling). Irritating to skin. Causes eye irritation. Contains one or more components which may cause target organ damage upon single exposure.

**Appearance**  
Tan

**Physical State**  
Solid

**Odor**  
No information available

**Classification according to 29 CFR 1910, amended to conform to the United Nations' Globally Harmonized System of Classification and Labelling of Chemicals (GHS):**

Skin Corrosion / irritation	Category 2
Serious Eye Damage / Eye Irritation	Category 2
Specific Target Organ Toxicity (STOT) Single Exposure.	Category 3
OSHA Defined Hazard(s)	Combustible Dust

### OSHA / GHS Label Elements

GHS Hazard Pictogram(s):	Note: The OSHA combustible dust hazard class does not have an assigned pictogram. 
Signal Word:	Warning
Hazard Statement(s):	May form combustible dust concentrations in air. H315 Causes skin irritation H319 Causes serious eye irritation H335 May cause respiratory irritation
<b>Prevention Precautionary Statements:</b>	Wash hands and exposed skin thoroughly after handling. Wear protective gloves. Wear eye/face protection. Avoid breathing dust/mist. Use only outdoors or in a well-ventilated area.
<b>Response Precautionary Statements:</b>	If on skin: Wash with plenty of water. Specific treatment: See section 4 of the SDS. If skin irritation occurs: Get medical advice. Take off contaminated clothing and wash it before reuse. If in eyes: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If eye irritation persists: Get medical advice. If inhaled: Remove person to fresh air and keep comfortable for breathing. Call a doctor if you feel unwell.

**Storage Precautionary Statements:**

Store in a well-ventilated place. Keep container tightly closed. Store locked up.

**Disposal Precautionary Statements:**

Dispose of contents/container in accordance with all applicable national and local regulations.

Up to 58 % of the mixture consists of ingredient(s) of unknown acute oral toxicity.

Up to 73 % of the mixture consists of ingredient(s) of unknown acute dermal toxicity.

Up to 73 % of the mixture consists of ingredient(s) of unknown acute inhalation toxicity.

**3. COMPOSITION/INFORMATION ON INGREDIENTS****Chemical nature of the preparation** Mixture.**The following component(s) are considered hazardous in accordance with paragraph (d) of 29 CFR 1910.1200 [OSHA] or require disclosure as an air contaminant.**

Chemical Name	CAS-No	Weight %	Substance Hazard Classification
Imidodicarbonic diamide	108-19-0	50% < x < 60%	Skin Irrit. 2. Eye Irrit. 2. STOT SE 3.
Cyanuric acid	108-80-5	20% < x < 30%	Skin Irrit. 2. Eye Irrit. 2.
Triuret	556-99-0	3% < x < 5%	Acute Tox. 4.

Components which are not considered to be health hazards under paragraph (d) of 29 CFR §1910.1200 (HCS 2012) or SOR/2015-17 (WHMIS 2015) are not required to be disclosed. Components may be present which contribute to a potential combustible dust hazard, but are not disclosed since they do not pose health hazards. If additional composition information is needed, please consult with your ADM sales or technical contact. Where a single SDS is used for similar mixtures or in cases of a batch-to-batch variability, OSHA guidance allows for the use of concentration ranges. [Directive: CPL 02-02-079]

**4. FIRST AID MEASURES****Description of first aid measures****Eye Contact** Immediately flush with plenty of water. After initial flushing, remove any contact lenses and continue flushing for at least 15 minutes. If eye irritation persists, consult a specialist.**Skin Contact** Wash off immediately with soap and plenty of water removing all contaminated clothes and shoes. If skin irritation persists, call a physician.**Inhalation** Move to fresh air.**Ingestion** Clean mouth with water and afterwards drink plenty of water.**General Advice** When symptoms persist or in all cases of doubt seek medical advice.**Most important symptoms and affects, both acute and delayed****Eyes** Contact with eyes may cause mechanical irritation. Contact with eyes may cause irritation.**Skin** Product dust may cause mild, mechanical irritation. Irritating to skin.**Inhalation** Dust may cause irritation of respiratory tract.**Ingestion** Health injuries are not known or expected under normal use. The product is not expected to produce ill effects when blended into animal feed in the recommended quantities.**Indication of any immediate medical attention and special treatment needed****Notes to Physician** Special forms of treatment and immediate medical attention are not specified. Treat Symptomatically.**5. FIRE-FIGHTING MEASURES****Flammable Properties**

As with most organic solids, combustion is possible at elevated temperatures or by contact with an ignition source. Fine dust dispersed in air may ignite. Risk of ignition followed by flame propagation or secondary explosions should be prevented by avoiding accumulation of dust, e.g. on floors and ledges.

**Extinguishing media****Suitable Extinguishing Media** Water. Foam. Carbon dioxide (CO<sub>2</sub>) Use extinguishing measures that are appropriate to local circumstances and the surrounding environment.**Unsuitable Extinguishing Media** None known.

**Special hazards arising from the substance or mixture**

**Hazardous Combustion Products** Carbon oxides, Nitrogen oxides (NOx).  
**Specific Hazards Arising from the Chemical** None known.  
**Sensitivity to mechanical impact** No information available.  
**Sensitivity to static discharge** Yes. (as dust).

**Advice for fire-fighters**

**Protective Equipment and Precautions for Firefighters** As in any fire, wear self-contained breathing apparatus pressure-demand, MSHA/NIOSH (approved or equivalent) and full protective gear.

**NFPA**

**Health** 2  
**Flammability** 1

**Stability and Reactivity** 0  
**Physical hazard** None known

**6. ACCIDENTAL RELEASE MEASURES**

**Personal Precautions, Protective Equipment, and Emergency Procedures**

Use appropriate personal protective equipment. Avoid dust formation and accumulation. Avoid contact with the skin and the eyes.

**Environmental Precautions**

Prevent further leakage or spillage if safe to do so.

**Methods and Materials for Containment and Cleaning Up**

Sweep up or vacuum up using spark-free earthed vacuum cleaner.

**7. HANDLING AND STORAGE**

**Handling**

Ensure adequate ventilation. Avoid dust formation in confined areas. Fine dust dispersed in air may ignite. Keep away from open flames, hot surfaces and sources of ignition. Refer to NFPA 61, "Standard for the Prevention of Fires and Dust Explosions in Agricultural and Food Processing Facilities". Avoid contact with skin and eyes.

**Storage**

Store in a cool, dry, hygienic situation, whether in bulk silos, tote bags or paper sacks. Keep containers dry and tightly closed to avoid moisture absorption and contamination.

**8. EXPOSURE CONTROLS / PERSONAL PROTECTION**

**Exposure Limits**

Where exposure limits have not been established for specific components of this material, please observe the OSHA and ACGIH established limits for particulates not otherwise classified (PNOC). OSHA PEL: [15 mg/m<sup>3</sup> (total dust) 8-hr TWA], [5 mg/m<sup>3</sup> (respirable) 8-hr TWA]. ACGIH TLV: [10 mg/m<sup>3</sup> (inhalable) 8-hr TWA], [3 mg/m<sup>3</sup> (respirable) 8-hr TWA].

**Appropriate Engineering Controls**

Ensure adequate ventilation, especially in confined areas. Apply technical measures to comply with the occupational exposure limits. However it is the duty of the user to verify this and follow given exposure limits at the workplace. Ensure that eyewash stations and safety showers are close to the workstation location.

**General Hygiene Considerations**

Handle in accordance with good industrial hygiene and safety practice.

**Personal Protective Equipment**

**Eye/face Protection.**

If exposed to airborne dust, safety goggles are recommended. Tightly fitting safety goggles. Long sleeved clothing and protective gloves are recommended. Also take into consideration the specific local conditions under which the product is used.

**Skin and Body Protection**

**Respiratory Protection**

If exposed to airborne dust, use appropriate NIOSH approved (or equivalent) respiratory protection. When workers are facing concentrations above the exposure limit they must use appropriate certified respirators. Appropriate respiratory protection should be selected by a qualified person and should be based upon a risk assessment of the work activities and exposure levels.

## 9. PHYSICAL AND CHEMICAL PROPERTIES

<b>Appearance</b>	Tan
<b>Physical State</b>	Solid
<b>Odor</b>	No information available
<b>Odor Threshold</b>	No information available
<b>pH</b>	No information available
<b>Flash Point</b>	Not applicable (solid)
<b>Autoignition Temperature</b>	No information available
<b>Boiling point</b>	Not applicable (solid)
<b>Melting/Freezing Point</b>	No information available
<b>Decomposition temperature</b>	No information available
<b>Oxidizing Properties</b>	No information available
<b>Flammability Limits in Air</b>	No information available
<b>Specific Gravity / Relative Density</b>	25 - 45 lbs/ft <sup>3</sup>
<b>Solubility(ies)</b>	No information available
<b>Evaporation Rate</b>	Not applicable (solid)
<b>Vapor Pressure</b>	Not applicable (solid)
<b>Vapor Density</b>	Not applicable (solid)
<b>Relative Density</b>	No information available
<b>Viscosity (kinematic)</b>	No information available
<b>Partition Coefficient (n-octanol/water)</b>	No information available

## 10. STABILITY AND REACTIVITY

**Reactivity** Stable under recommended use and storage conditions.

**Stability** Stable under normal conditions.

**Possibility of Hazardous Reactions** None under normal processing.

**Conditions to Avoid** Heat, flames and sparks. Avoid dust formation.

**Incompatible Materials** No materials to be especially mentioned.

**Hazardous Decomposition Products** Thermal decomposition may lead to release of, Carbon oxides, Nitrogen oxides (NOx).

## 11. TOXICOLOGICAL INFORMATION

### Information on toxicological effects

<b>Acute toxicity</b>	Based on available data, no evidence of acute toxicity. (Classification is based on available literature data for the significant mixture components). The product is not expected to produce ill effects when blended into animal feed in the recommended quantities.
<b>Skin corrosion/irritation</b>	Cat 2 H315: Causes skin irritation. (Classification is based on available literature data for the significant mixture components).
<b>Serious eye damage/eye irritation</b>	Cat. 2 H319: Causes serious eye irritation. (Classification is based on available literature data for the significant mixture components).
<b>Respiratory or skin sensitisation</b>	Not expected to be a skin or respiratory sensitizer. (Classification is based on available literature data for the significant mixture components).
<b>Germ cell mutagenicity</b>	Not classified. Not expected to be mutagenic. None of the significant input ingredients of this mixture have been identified as being mutagenic.
<b>Carcinogenicity</b>	Based on available data, no evidence of carcinogenicity. No component of this product present at levels greater than or equal to 0.1% is identified as a known or anticipated carcinogen.
<b>Reproductive toxicity</b>	Not classified. Not expected to be toxic to reproduction. None of the significant input ingredients of this mixture have been identified as being toxic to reproduction.
<b>STOT - single exposure</b>	STOT SE, Cat. 3: May cause respiratory irritation. (Classification is based on available literature data for the significant mixture components).
<b>STOT - repeated exposure</b>	Not classified. No evidence of toxicity. None of the significant input ingredients of this mixture have been identified as a STOT RE hazard.
<b>Aspiration hazard</b>	Based on available data, no known aspiration hazard. (Classification is based on available literature data for the significant mixture components).

**Potential health effects**

**Eyes** Contact with eyes may cause mechanical irritation. Contact with eyes may cause irritation.  
**Skin** Product dust may cause mild, mechanical irritation. Irritating to skin.  
**Inhalation** Dust may cause irritation of respiratory tract.  
**Ingestion** Health injuries are not known or expected under normal use. The product is not expected to produce ill effects when blended into animal feed in the recommended quantities.

**12. ECOLOGICAL INFORMATION**

**Ecotoxicity**

Not classified for aquatic toxicity. This product has not been evaluated for eco-toxicological effects. Component-level values are listed below.

Chemical Name	Weight %	Fresh Water Algae	Acute Fish Toxicity	Daphnia (Water flea)
Cyanuric acid	20% < x < 30%	EC50: 96h 712 mg/L (Pseudokirchneriella subcapitata)	LC50: 96h 1400mg/L (Lepomis macrochirus) LC50: 96h 1000mg/L (Lepomis macrochirus) static LC50: 96h 2100mg/L (Pimephales promelas) static	
Urea	10% < x < 20%		LC50: 96h 16200-18300mg/L (Poecilia reticulata)	EC50: 48h 3910 mg/L (Daphnia magna) EC50: 24h 10000 mg/L (Daphnia magna Straus)

**13. DISPOSAL CONSIDERATIONS**

Whenever possible, as rules and regulations allow, please recycle or manage materials to minimize waste.

**Waste Disposal Methods** Dispose of in compliance with the laws and regulations pertaining to this product in your jurisdiction.  
**Contaminated Packaging** Empty containers should be taken for local recycling, recovery or waste disposal.

**14. TRANSPORT INFORMATION**

**Domestic transport regulations (USA)**

DOT Not regulated.

**15. REGULATORY INFORMATION**

**International Inventories**

As animal feed, this product is exempted from the following inventories: U.S.A. (TSCA).

**USA**

**Federal Regulations**

**SARA 311/312 Hazardous Categorization**

Acute Health Hazard	No
Chronic Health Hazard	No
Fire Hazard	Yes (when in the form of combustible dust)
Sudden Release of Pressure Hazard	No
Reactive Hazard	No

**SARA 313**

Section 313 of Title III of the Superfund Amendments and Reauthorization Act of 1986 (SARA). This product is not known to contain chemicals at levels which are subject to the reporting requirements of the Act or regulations contained in 40 CFR 372.

**CERCLA/SARA 103-302**

Sections 103-302 of Title III of the Superfund Amendments and Reauthorization Act of 1986 (CERCLA/SARA). This product is not known to contain chemicals at levels which are expected to be subject to the reporting requirements of the Act or regulations contained in 40 CFR 103-302.

**State Regulations****State Right-to-Know**

This product may contain one or more ingredient(s) which are subject to state right to know laws. Please contact your sales representative for ingredient details if needed.

**16. OTHER INFORMATION**

<b>Prepared By:</b>	ADM Animal Nutrition™
<b>Original Preparation Date:</b>	01-Oct-2013
<b>Revision Date:</b>	27-Jan-2016
<b>Revision Number:</b>	1
<b>Reason for revision:</b>	Implementation into software system.

**Literature References:**

When available, hazard classifications for unreacted ingredients are obtained from supplier Safety Data Sheets.

Additional literature sources may include:

- CSST Répertoire toxicologique: 2015 WHMIS classification of chemical substances (<http://www.csst.qc.ca/en/prevention/reptox/Pages/list-whmis-2015-a.aspx>)

**Abbreviations and acronyms**

A1 - Known Human Carcinogen  
 A2 - Suspected Human Carcinogen  
 A3 - Animal Carcinogen  
 ACGIH TLV - American Conference of Governmental Industrial Hygienists Threshold Limit Values  
 CAS - Chemical Abstract Service  
 Ceiling - Ceiling Limit Value: Concentrations that should never be exceeded at any given time (instantaneous)  
 Delisted - Substances Delisted from Report on Carcinogens  
 DNEL - Derived No Effect Level  
 DOT - U.S. Department of Transportation  
 GHS - Globally Harmonized System of Classification and Labelling of Chemicals  
 Group 1 - Carcinogenic to Humans  
 Group 2A - Probably Carcinogenic to Humans  
 Group 2B - Possibly Carcinogenic to Humans  
 IARC - International Agency for Research on Cancer  
 IDLH - Immediately Dangerous to Life or Health  
 Known - Known Carcinogen  
 LC50 - Lethal concentration that produces fatalities in 50% of a given test population  
 LD50 - Median lethal dose of a given test population  
 NFPA - National Fire Protection Association  
 NIOSH - National Institute of Occupational Safety and Health  
 NOAEL - No Observed Adverse Effect Level  
 NTP - National Toxicology Program  
 OECD - Organisation for Economic Co-operation and Development  
 OSHA - Occupational Safety & Health Administration  
 OSHA PEL - Occupational Safety and Health Administration Permissible Exposure Limits  
 PNEC - Predicted No-Effect Concentration  
 Present - Carcinogen or potential carcinogen to be identified under OSHA's Hazard Communication Standard  
 Reasonably Anticipated - Reasonably Anticipated to be a Human Carcinogen  
 Skin notation - Potential for cutaneous absorption

---

STEL - Short Term Exposure Limit: Concentrations that should not be exceeded except for short periods of time ( usually 15-minutes)

STOT - Specific Target Organ Toxicity

STV - Short Term Value (same as STEL)

TSCA - Toxic Substances Control Act, Section 8(b) Inventory (USA)

TWA - Time Weighted Average: Average concentration that should not be exceeded during a work day (usually 8-hours)

Under Consideration - Under Consideration by the National Toxicology Program
